

VALENCIAN FOUNDATION FOR EXCELLENCE IN RESEARCH (ValER)

RESOLUTION of the Executive Director publishing the provisional list of admitted and excluded applications in the ValER 2026 Call for eight permanent positions of Distinguished Researcher in the Valencian Community

By resolution of April 23, 2026, the ValER Executive Director published the ValER 2026 Call for eight permanent positions for distinguished researchers in the Valencian Community (DOGV No. 10353 of 04/30/2026 and www.valer-f.es), whose regulatory bases establish in section 6 ("Applications and Documentation") and section 7 ("Deadline and Submission Procedure") the requirements, documentation and deadline for the submission of applications, setting the deadline as June 30, 2026, at 13:00 hours (Central European Time).

Having completed the deadline for submitting applications through the online platform <https://call.valer-f.es/>, and having reviewed the documentation submitted by the applicants in order to verify compliance with the essential requirements established in section 4 of the call for applications, as well as the complete submission of the documentation required in section 6, it is appropriate to issue this resolution declaring the provisional list of applications admitted and excluded from the evaluation process.

Therefore, by virtue of the power of attorney granted by Article 19.3.c) of the Statutes of ValER,

I RESOLVE

First. To establish the provisional list of applications admitted and excluded from the evaluation process of the ValER 2026 Call, which are listed in Annex I and Annex II, respectively, of this resolution.

Second. Publicize this resolution in the corresponding section of the Foundation's website (<https://www.valer-f.es/>).

Third. A period of 10 calendar days, starting the day after publication, is open for submitting appeals via email to call@valer-f.es, indicating the file number, the observed defect, and the proposed method of correction. Supporting documents for the appeal must also be submitted, if applicable. During the appeals phase, documents required during the application submission phase may not be submitted or modified; only appeals demonstrating that the aforementioned documentation was submitted within the registration period but was disregarded will be considered. If the defect that led to exclusion is not corrected within this period, the applicant will be deemed to have withdrawn their application.

Fourth. Once the allegations have been resolved and, where appropriate, the defects have been corrected, a resolution will be issued making the list of admitted and excluded candidacies final, which will also be published on the ValER website.

Fifth. Inform applicants that they can track the status of their application through the online platform enabled for this purpose at the web address <https://www.call.valer-f.es>, accessing using their username and password.

In Castellón de la Plana, on the date of the digital signature,

Mónica Vázquez Moreno
ValER Executive Director

Prof. Rosa Llusar Barelles
ValER Scientific Director
